

# THE SCIENCE GALLERY

## Dear Educator:

Thank you for choosing to bring your students to the Science Gallery.

When you arrive, check in at the box office on the Planetarium level. For payment, you will be required to know the exact number of students and adults in your group.

Store outerwear, lunches, backpacks, etc. in the cloakroom in the lower level. No backpacks in the gallery. The Manitoba Museum is not responsible for loss or theft; valuables should be left at home or school.

For further information, please visit our website [www.manitobamuseum.ca](http://www.manitobamuseum.ca) or call 988-0626.

## Visiting the Science Gallery

During your visit you will be exploring the Science Gallery, home to a variety of interactive exhibits covering a range of topics, including engineering, forensics, animation, numbers, sound and colours just to name a few.

Many of our exhibits feature a “What to do” and “What’s going on” label providing short instructions and descriptions. We encourage all our visitors to read this information so they get the most out of each exhibit.

Our exhibits are best enjoyed with the assistance of an adult –teachers are asked to divide the class into smaller groups assigned to adult supervisors.

Please note, washrooms and water fountain are located near the *Numbers Game* exhibit. There is no need to leave the gallery during your visit.

If possible, our staff will greet you when your self-guided visit begins to go over the following rules. Feel free to discuss the expectations with your class prior to arriving at The Manitoba Museum.

## Science Gallery Rules

1. No running, please.
2. Out of respect for other classes and visitors, please use indoor voices.
3. Food and drink are not allowed in the gallery. No gum, please.
4. Before entering the Matrix –the room of mirrors– everyone must remove their shoes and put on the slippers provided. Please put your shoes back on your feet when you leave the Matrix.
5. Please read or listen to instructions before trying out the exhibits.

Class control remains the teacher’s responsibility.

Self-guided visits in the Science Gallery are 60 minutes. However, you may choose to have your group called out before the end of that hour.
